

REMARKS

This amendment adds claims 108-111 that depends from claims already pending. The amendment also adds new independent claims 112, 124, and 136 with dependent claim sets 113-123, 125-135, and 137-155, respectively. The new independent claims variously recite limitations concerning selection of a local oscillator frequency from "a set of local oscillator frequencies" in tuning methods where a passband is defined based on channel spacing.

Please feel free to telephone the undersigned if it would in any way advance prosecution of this application.

Respectfully submitted,

Edwin A. Suominen  
Reg. No. 43,174
